Two held in Albany shooting

ALBANY — Two Berkeley juveniles were in custody today after the shooting of an Albany man, and police are investigating what they believe to be more than \$20,000 in stolen property found at one of the juvenile's home.

Listed in serious but stable condition at Kaiser Oakland Hospital today is Willie Bennett of 947 Peralta St. Albany, Bennett, who had been burglarized Sunday evening, heard footsteps on the gravel outside his home last night about 7:30 and became suspicious.

When he investigated the noise he found two juvenile males in the dark, both armed. In the struggle which followed he disarmed one youth, but was shot in the abdomen.

Albany police took both youths in custody, along with a 9 millimeter semi-automatic pistol and a 44-magnum, believed to be the weapon with which Bennett was shot.

Investigation of the home of one of the arrested juveniles in Berkeley revealed what is believed to be stolen china, silver, and expensive cameras.

Both the Albany and Berkeley police are continuing their investigation of the case.

County budgets up 7.51 percent

SACRAMENTO — Total budget requirements of California's county governments increased 7.51 percent for Fiscal Year 1976-77 and reached a statewide average of \$373 per person, State Controller Kenneth Cory reported today.

"Increases by 49 counties resulted in a budget total of \$7.7 billion for 57 counties which is \$538.8 million higher than in 1975-76," Cory said in summarizing the 15th Annual Report of Budget Requirements and Means of Financing Adopted by California Counties.

Budget reductions were made in the counties of Alpine, Del Norte, Humboldt, Lassen, Mendocino, Monterey, Sutter and Yuba. The report is confined to county budget requirements and does not reflect the budgets

of cities, schools and special districts. San Francisco's combined city-county budget is not comparable and is not part of the report.

Alameda County showed an increase of \$27,378,590 amounting to 7.39 percent. The greatest percentage of increase was 25.68 percent in Kern County, and sharpest reduction was 14.99 percent in Humboldt County.

Cory noted that since the first such report was published for Fiscal Year 1962-63, the 57-county budget total has grown from \$1.7 billion to \$7.7 billion and the per capita share has gone from \$102 to \$373.

State and Federal subventions and shared revenues meet a major portion of the counties' budget requirements, but the report indicates a growing use of property tax revenues. Property tax levies for 1976-77 total \$2.5 billion and account for 32.46 percent of the budget requirements of the 57 counties. The 1975-76 tax levies of \$2.26 billion accounted for only 31.54 percent of the total budgets.

There were increased property tax levies in 56 counties, and 38 counties showed a higher degree of reliance on property tax revenues than they did last year.

Imperial County showed least reliance on property taxes which make up only 18.74 percent of its budget needs. Marin County reported that property taxes make up 38.49 percent of its revenues, the highest percentage among the counties.

Alameda County's property tax levy is \$125,206,576 as compared to \$111,161,998 last year, and accounts for 31.77 percent of the 1976-77 budget in contrast to 29.99 percent in 1975-76.

Police 'tool of fear' rejected by Albany

ALBANY — A post-Christmas sale sign may soon hang on the "Psychological Stress Evaluator" which was accepted by Albany police as an "investigative tool" and then rejected by the city council as a "tool of fear."

The council last night voted 3-2 to refuse acceptance of the PSE machine which had been purchased with \$2,500 raised during a citizens' campaign and presented to an enthusiastic Police Chief James Simmons.

The council also forbade the use of such a machine in the future, although it had been used by the local police on a rental basis for the past three years.

The machine records and measures voice tremors of questioned suspects, either directly or by tape, television or telephone, with alterations of voice patterns reportedly indicating a false statement.

Chief Simmons today said he will withhold comment on the council action until he further evaluates the situation.

Reputed to be worth about \$4,500 the PSE was purchased from an Oakland firm for \$2,500 with funds raised by citizen Leonard Keck after the city council last summer decided against spending city funds on it, saying other items had higher priority.

Numerous local businesses and individuals contributed to the effort.

The motion for rejection was made by Vice Mayor

Pat Griffin, who also stipulated that the city could instead accept the money for city purposes, either police or any others selected by the citizens. This made it apparent that Griffin did not know that the machine had earlier been purchased, and was already installed in the

police department equipment room.

The vote had Griffin, Councilman Mike Griffin and Mayor Joyce Jackson favoring rejection of the gift, with Councilmen Lewis Howell and Robert Luoma opposing rejection.

The council chambers re-

sounded with arguments for rejection. The machine had few supporters, with Chief Simmons reportedly out of town and Keck absent after appearing at last week's council session.

At first, it appeared that the vote might be 3-2 or 5-0 in favor of accepting the

machine when Mayor Jackson said consideration should be limited to the type of guidelines applied to the machine, with acceptance the prerogative of the police chief.

She based her evaluation on statements by City At-

Amending of ballot proposed

ALBANY — Four "housekeeping" amendments to the Albany City Charter will be proposed on the April 19 ballot, which is consolidated with the election of the Peralta Community College District.

The city council last night approved the amendment proposals relating to continued insurance coverage for retired police and fire department employees, also official city records, budget procedures and contract work.

However, two proposed amendments were dropped, one changing the two-thirds vote needed for bond elections to early March in the even numbered years.

The council unanimously favored placing the retirement amendment on the April ballot, but the voting was split on the other three amendments. The vote was 3-2 for placing the contract work and official records amendments on the ballot. Mayor Joyce Jackson and Councilman Lewis Howell were opposed, both arguing they should go on the regular city election ballot.

The vote was 3-1 for placing the budget procedure amendment on the ballot, with Mayor Jackson opposed, and Councilman Howell departed due to the late hour.

Albany students will explore 'wonderful human machine'

By NORMAN COLBY
I-G Staff Writer
(Second of two articles)
"Health education is an idea whose time has come," says Albany Schools Superintendent Charles McCully.

And it has really arrived in Albany.

For 15 months, a comprehensive health education program for kindergarten through eighth graders was in the making, with school district staff and highly-qualified citizens of the community giving it form.

Another 12 months are being spent developing an advanced approach for Albany High students.

The entire 27-month project should be completed next June.

It should establish a prototype for other school districts seeking to deliver health knowledge to all their children.

In the vortex of the creative and implementing process is Mrs. Rosalind Singer, a health education specialist who started with an idea.

"In the past, most health and sex education was crisis-oriented. We know that many crises can be avoided if the youngsters have information and attitudes of responsibility. This is our goal," she said.

Today, Albany teachers on the K-8 levels have the materials for conducting interesting and carefully articulated instruction based upon the overriding theme:

"My body is mine."
"My emotions are mine."
"My environment is mine."

"All these are my responsibility to understand and care for."

The curriculum throughout follows this theme, with emphasis first on the body, then the emotions and finally, the environment.

During health education classes, youngsters take part in discussions and activities aimed toward these goals.

There is a progression coinciding with the

youngsters' abilities and interests as they move up through the grades.

Although the high school curriculum is still in its development stage, Mrs. Dinger and the staff are already considering how the Albany schools will be able to continue the K-8 instruction and launch the 9-12 classes, either using only local funds or obtaining some additional outside help.

It all started with a knock on the door.

Mrs. Singer's proposals were warmly received by Supt. McCully, the school board and staff. But there was no district money available.

Mrs. Singer then went to the San Francisco Foundation, obtaining a \$32,550 grant covering a two-year period.

The project involved the district staff, of course, but also a "Committee Advisory Committee" including

Search for dog after attack on Albany boy

ALBANY — Andre Crowe, a 13-year-old youth living in Albany, was bitten January 9 on the upper left leg while riding his bike on the south parking lot of Golden Gate Field Race Track in Albany.

Public Health authorities are particularly concerned about the dog, who was identified as a shepherd-collie mix, full grown male. Health officials of Berkeley

and Albany need to know whether the dog has been protected against rabies.

"Information provided by observers of the incident indicate that the dog is owned by a person living out of the state. This is known because the dog was driven away in a white van, which had a license plate of green letters on a white background, numbered CX-7273 or CX-7372.

"Andre was taken to Children's Hospital in Oakland where he received first aid and a tetanus shot.

"Authorities of the Hospital are concerned about the possibility of Andre having to undergo a painful and prolonged series of rabies shots if the dog is not identified.

"Unless the dog is identified as having rabies protection, Andre will have to face this problem as of January 20, when the quarantine period ends."

Anyone having any information on the dog or its owner, is asked to call the City of Berkeley Animal Shelter, 644-6755, or the Albany Police Department, 525-7300.

'Psychic' editor lectures at Unexplained Museum

SAN FRANCISCO — Alan Vaughan, editor of *Psychic Magazine*, will attempt to answer "two questions commonly asked by the reading public — 'Is everybody a psychic?' and 'Can the average person develop powers of ESP?'" — in a lecture at the Unexplained Museum on Fisherman's Wharf.

He will address the meeting at 8 p.m. Jan. 25. Alan has been teaching psychic development techniques since 1969. He is the top scorer in precognitive "hits" with the Central Premonitions Registry, included in the Psi-Search Exhibit, and was announced recently on the Merv Griffin Show as the "most accurate predictor available today." Alan is also the author of *Patterns of Prophecy* and is featured bi-monthly in *Psychic Magazine*.

Vaughan's lecture is part of the First Psychic Lecture Series sponsored by the World of the Unexplained Museum and *Psychic Magazine* at the Museum's 235 Jefferson St. address, San Francisco. Tickets are available at the World of the Unexplained Museum and all BASS and Ticketron outlets.

Wine tasting benefit for medical center

ALBANY — The big annual Wine Tasting benefiting Children's Hospital Medical Center will be held Jan. 22 at the Turf Club, Golden Gate Fields, from 5:30 to 8 p.m.

According to its coordinating chairman, Bert (Mrs. Everett) Bertillon of Oakland, the event has been held in the Turf Club since its inception in 1956.

Mrs. Bertillon who has been Wine Tasting chairman from the inception of the event, is the niece of Bertha Wright, the nurse who started Children's Hospital 65 years ago.

The tasting which will feature 22 white, red and rose wines furnished by 11 wineries in the Napa Valley Vintners Association, "is always staged authentically to please the purists," Mrs. Bertillon said.

"Each guest gets one glass for the evening. He or she moves through each numbered table in sequence with the printed program distributed to everyone. We start with the light, dry

wines progressing through the heartier reds and ending with the fruitier flavors and dessert wines."

"Tasters may clear their palates between wines with French bread and cheese."

No tickets will be available at the door, but may be obtained in advance by calling Carolyn (Mrs. Robert) Matthias of Lafayette (284-9514); Febe (Mrs. Melville) Rumwell, Moraga (376-5333); or Oakland Children's Hospital Branch Office (weekdays, 8 to 4:30 at 652-9202).

Evangelical Women's Caucus
"Christian Feminists in the Evangelical Milieu" will be the topic of a panel discussion this Thursday at 7:30 p.m. at Lakeside Presbyterian Church, 19th & Eucalyptus St., in San Francisco.

The event is sponsored by Bay Area Evangelical Women's Caucus, composed of women from theologically conservative churches who believe that feminism is consistent with the Bible.

Agreeing that it is not easy to be a feminist in the evangelical world, three women will describe their struggles to gain acceptance and to influence their churches to improve opportunities for women.

For two of the panelists, Fran Adeney and Virginia Hearn, one solution has been to join a non-traditional, loosely structured church meeting in homes in Berkeley. Adeney's Christian journey began in a Plymouth Brethren church in London and includes time spent at the L'Abri Fellowship in Switzerland. She is now part of the Berkeley Christian Coalition, a mother of three, and an occasional teacher of seminars on ethics.

Hearn has worked as an editor for various religious publishers for 15 years, including Tyndale House Publishers. She and the third panelist, Anne Eggebroten, are coordinators of Bay Area EWC. A member of Ygnacio Valley Presbyterian Church in Concord, Eggebroten has worked for Christianity Today magazine, been in Inter-Varsity Christian Fellowship, and is now on the national steering group of EWC.

Emphasizing love as well as justice between the sexes, EWC members hope to challenge their churches to give men and women equal responsibilities and privileges.

Comments and experiences of those attending will be welcomed after the main talks. Parking is available in the church lot or at Stonestown Shopping Center. For more details call the SF EWC host group (681-6647) or write BA EWC, 762 Arlington.

ALBANY COUNCIL REJECTS 'TOOL OF FEAR'

(Continued from Page 1) Mayor Jackson also proposed starting the public hearing with opposition speaking first, but Griffin objected, saying it is routine for proponents to start. Supporters went first.

Griffin himself declared that federal authorities have decided against using the machine, alleging that it is valid only in "one third" of the tests and is not useful or reliable.

Griffin and other speakers appealed to the U.S. Bill of Rights, indicating that the PSE machine could violate admonitions against search and seizure and other principles.

Gleason said neither the Alameda County sheriff nor the Alameda County district attorney favor use of the PSE machine, adding that Albany police should depend on "hard evidence" instead of "a pseudo scientific device" in pursuing their investigations.

Objections to the machine were made by Ginger Gould, representing the American Civil Liberties Union of Berkeley, Albany and Kensington, Harry Styron, attorney and former

council candidate, John Mayberry, an ACLU member, Odessa Shavers, Dario Meniketti and others. Ms. Gould called the PSE machine "... a dangerous infringement upon the rights of all citizens," with a major problem being statements made by suspects before they obtain legal counsel.

Styron referred to the PSE as a "tool of fear" in contrast to Chief Simmons' earlier statements that it is an "investigative tool" only, and is not admitted as evidence in courts, similar to the status of the polygraph, or lie detector.

Styron called for solving the crime problem by "...

making citizens aware of the ethical necessity of obeying the law," not by using methods such as the PSE approach which can lead to "... further attempts to control society as practiced in the U.S.S.R. and by Hitler in Germany."

Mayberry reminded listeners of the dangers of "1984," warning them, "you can't capture the truth in a box. ... this is a Pandora's box."

Supporters of the machine included citizens Jerry Talley and Stephen Radkey. Talley accused Griffin of trying to "hamper" the police department while Radkey said much investigative time could be saved

where the machine indicates someone is innocent.

Radkey said the city has a responsibility to aid police efforts except by use of the "third degree, the screw, rack or the wheel."

Council Luoma responded to Ms. Gould's comments, saying he does not like "criminals enjoying more rights than the citizens." Several listeners reminded Luoma that, "Suspects are citizens, too."

Mayor Jackson, the swing vote in the issue, told the audience that the comments had impact on her thinking, and she hopes for "... more concern about human beings than hardware in the police department."

Summer racing slate asked for GG Fields

SACRAMENTO (AP)—A bill that would grant a \$135,000 break in state racing license fees for a quarterhouse meet opening Feb. 28 at Bay Meadows has passed its first vote in the legislature.

A 13-0 vote Monday by the Assembly Revenue and Taxation Committee sent the measure by Assemblyman Frank Vicencia, D-Bellflower, to the Assembly Ways and Means Committee.

Vicencia's bill would extend until Sept. 1 a temporary reduction in state tax rates for small horseracing associations and raise the ceiling for qualifying for the tax break from the current

\$25 million handle to \$30 million.

Under current law, horseracing associations pay 6.1 per cent of the first \$20 million handle to the state and 5.7 per cent of the second \$20 million. A temporary bill expiring this month lowered that rate to 5.5 per cent for meets under \$25 million handle.

Vicencia said his bill is intended to help the upcoming California Horseracing Association meet at Bay Meadows, and that it might apply to a four-week harness racing meet in July at Golden Gate Fields.

The proposed ceiling was raised from \$28 million to \$30 million because of esti-

mates that the Bay Meadows meet would bring in a \$28.4-million handle. The measure provides that if a meet tops the handle, the entire amount is subject to the higher tax.

Spencer Childers, spokesman for the California Horseracing Association, said his meet lost \$85,165 last year at Bay Meadows because the handle just inched over the \$25 million level, in part because of a strike at Golden Gate Fields.

Vicencia said his bill was a temporary measure intended to help the Meadows group until a major reorganization of the state structure is introduced to give small tracks a better break.

Albany Bowl

Alee, Jiminez post 700 series, Medici wins singles tourney

By PHIL ALSTON

ALBANY — Joe Alee and Pedro Jiminez celebrated start of second half action in the 915 Major League at Albany Bowl Jan. 4 by posting their first 700 series of the season. Both hit that figure squarely on the nose.

The Full House team, which finished the first half in the dismal surroundings of 11th place, took advantage of a clean slate on the standings board to leap into first place with a 20 to 5 decision over Mario's Marauders.

Full House got its biggest push from Jack Jordan's 651 series on games of 239-203-209, but Al Ochoa helped with 608, Jim Bragg with 595.

Also off to a good start were McCue Printers, who rode Gary Kidd's 592 to an 18½ to 6½ win over first half winners, Diablo Bowling Supply.

Alee's games of 237-245-218 were the chief ingredients in Nevada Tahoe Tours' 17-8 whipping of BCL Superstars, who had a best of 590 by Charley Taylor.

Jiminez shot the best game of the night when he followed 221 and 212 with 267 in leading Curtis Cowboys 16½ to 8½ past Associated

Coin Amusements. Jiminez had strong support from Marc Clyburn's 237-600.

J. E. Smith Enterprises nipped Solano Club 14-11 as Doug Hatwig topped a 630 series with closing game of 237. Ted Kalem's 597 and Vito Varvaro's 565 kept Solano Club in close contention.

Emulate Productions had enough cushion to coast to the first half title in the Majorettes League, despite a final night loss to Murder, Inc., 14½ to 7½.

Graphic presentation on depletion of Delta water

SAN FRANCISCO — A proposal to reduce farming slightly, repair deserts, regenerate rivers and take other actions to curtail development of Northern California water resources is the theme of an exhibition being staged by Southern California artists Helen and Newton Harrison at the San Francisco Museum of Modern Art.

The Sacramento River watershed is under extreme stress and close to the edge of disaster according to the Harrisons and their research indicates that small changes now could guarantee the river's future.

Titled "Meditation on the Conditions of the Sacramento River: Its Delta

and the Bays of San Francisco," the exhibition is comprised of a series of maps outlining the proposal. Outside of the museum, posters, classified ads, graffiti, billboards, and six hours of TV, mostly concentrated in the Bay Area will call further attention to the proposal. The project is sponsored by the Floating Museum, a San Francisco organization that stages conceptual artworks in museums and other locations.

Newton Harrison is on the art faculty of the University of California in San Diego and Helen, his wife, has a background in social psychology and anthropology.

Merit Technology Applied To 100mm Cigarette.

'Enriched Flavor' process adapted to new low tar 100mm cigarette with remarkable success.

MERIT established a whole new taste standard for low tar smoking.

If you smoke but haven't chosen to take advantage of the MERIT breakthrough because you prefer a longer length cigarette, you'll be interested.

Because now there's a MERIT for you, too. New MERIT 100's. Only 12 mg. of tar. Yet packed with extra flavor. The kind of flavor that makes "low tar, good taste" a reality for 100's smokers.

'Enriched Flavor' Tobacco

Like MERIT, MERIT 100's are packed with 'Enriched Flavor' tobacco. Tobacco fortified with certain key flavor-rich ingredients isolated in cigarette smoke; and

proven to deliver taste way out of proportion to tar.

We taste-tested MERIT 100's against some of the toughest competition we could find: higher tar 100mm cigarettes.

Here are the results.

Test Data Conclusive

New 12 mg. tar MERIT 100's were taste-tested against a number of major 100mm brands ranging from 17 mg. to 19 mg. tar.

Thousands of smokers were tested.* The results: overall, they liked the taste of MERIT 100's as much as the higher tar 100mm brands tested.

MERIT and MERIT MENTHOL. King Size and new 100's.

The taste barrier for low tar smoking has been broken again.
